Via email: mosleh@yu.ac.ir

Dear Mr. Mosleh:

On behalf of the SPE Board of Directors, I would like to thank you and Gachsaran Faculty of Petroleum and Gas for supporting Kian Habibi's participation as a Volunteer of the Summit Pathways To Net Zero In India Challenges and Opportunities and an Advisor of the Virtual Career Pathway Fair.

SPE is a key resource for technical knowledge related to the upstream segment of the oil and gas industry, providing services through publications, events, training courses, and online resources.

From the SPE president to committee members, authors, lecturers, and many more, volunteers provide the leadership of SPE for the benefit of other members and the industry. They help shape member programs and disseminate technical information to E&P professionals around the world. Volunteering also provides opportunities for members to gain valuable experience and expand their skills in a nontraditional way.

Our volunteers help ensure that SPE continues its vital role in helping industry professionals meet the changing and diverse challenges of the future.

We could not do this without your support.

Sincerely,

Medhat M. Kamal
2023 SPE President
